

eBooks on Demand for K-12 Libraries

We've expanded our eBook library with unlimited access to thousands of new titles. **Click it out!**

A swarm of new eBooks, available to your kids now!

Introducing Brain Hive,[™] an engaging new online reading experience that makes thousands of eBooks instantly available, on demand. Kids can now discover and check out eBooks for free at any time, and from any location with an active Internet connection. Reading the most popular K-12 library books just got a lot easier — and more fun.

There's something for everyone in this amazing eBook collection: picture books, leveled books, graphic novels, nonfiction series, young adult novels and more, all from the top authors and publishers.

Our easy-to-use eReader works on any Internet-connected computer or iPad.[®] Bookmarking, note-taking, a dictionary and other user-friendly tools help create a truly enriching reading experience.

➔ **Safe.** Password protection and advanced data encryption make Brain Hive secure for all users, and the librarian has complete control over which eBooks can be accessed by whom.

➔ **Simple.** Brain Hive makes it easy for students to read exactly what they want to read, the moment they're motivated to do so. Access to each title is unlimited, so kids never have to wait to get started on their favorite eBook.

➔ **Fun.** This is a lively place where students learn together. They can rate books, mark favorites, share with friends, join book clubs and much more.

Frequently Asked Questions from Parents

Q: How much does it cost for my child to be on Brain Hive?

A: **Absolutely nothing.** Access to the Brain Hive eBook collection is free for all students at this school.

Q: How do I get access to Brain Hive for my child?

A: **Talk to the head librarian.** He or she will provide your child with a username and password for logging on.

Q: Do my kids need a special computer or equipment to access Brain Hive?

A: **No.** The student must simply be connected to the Internet to access Brain Hive and check out and read eBooks. Brain Hive supports multiple web and mobile browsers, including those for PC, Mac and iPad.

Q: Will you share my child's information?

A: **No.** Your student's personal information is properly safeguarded, will be used only for legitimate purposes and only when absolutely necessary.

Q: Can parents become Brain Hive members for eBook access and check out from home?

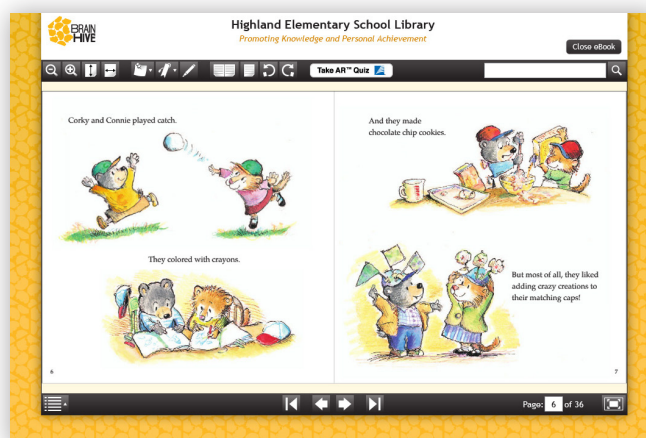

A: **No.** Brain Hive membership is restricted to students and teachers in this school.

Q: How can I ensure that Brain Hive eBooks are appropriate?

A: **Brain Hive allows librarians to curate their eBook collection just like their print collection.** The librarian may delete any title from the eBook collection at any time, or remove sensitive titles from the main eBook collection and add them to a custom collection accessible only to select students or groups. Either way, the librarian maintains complete control over all content that is accessible through Brain Hive.

Brain Hive makes reading fun by allowing kids to mark favorites, share recommendations, join book clubs and more.

An easy-to-use eReader offers bookmarking, note-taking and a built-in dictionary to augment learning.
