POSSIBILITIES

## TRANSFORMATION

### The right partner can make it happen.

Every cemetery property has the potential to transform. To thrive as market dynamics shift. To capitalize on new opportunities. To serve the community's changing needs.

To achieve this potential, you need the right partner. One who shares your vision.

One who understands the market, from the rising cremation rate to the pre-planning trend. One who delivers turnkey solutions that extend beyond the boundaries of any single project.

Cold Spring Memorial Group is that partner. Trust us to provide what others can't: strategic thinking, high-quality products, exceptional value and responsive service — all brought together to completely transform your cemetery property.

## EXPERTISE

### Skilled professionals dedicated to quality.

Cold Spring Memorial Group gives cemetery owners direct access to experts in multi-phase expansion, improvement and maintenance. Whether the cemetery requires basic or extensive development, our expert designers know how to create compelling, visually distinctive solutions that make the most of your property.

In every phase, we use a flexible approach to align with your budget and timeline. Our skills also include comprehensive project management, contract administration and on-site supervision. To ensure success, we employ open communication with our clients, a team-building mindset and well-established channels for continuous feedback.

## EXPERIENCE

### Seasoned experts open to new ideas.

Many providers can design and build individual projects. We do more.

The depth and breadth of our experience make us the right partner for cemetery owners who have bold development ideas, as well as those who need help creating a solid development strategy.

No matter what your property requires, our experience gives us a distinctive edge when it comes to selecting materials, anticipating issues and finding efficiencies.

### PROJECT CAPABILITIES

- Private estates
- Community mausoleums
- Columbariums
- Cremation gardens
- Chapels
- Funeral homes
- Administrative facilities
- Maintenance facilities

## INTEGRATION

### Turnkey solutions that defy convention.

Cold Spring Memorial Group takes the definition of turnkey beyond design and build.

Our integrated approach brings together critical development processes into a single operation that spans pre-construction, building delivery solutions and site work. We handle every aspect of every phase, so you always have one point of contact who is directly involved.

Service integration improves quality, consistency and reliability. Our work teams can share resources and best practices, explore tradeoffs, cross-check details, and manage the schedule without the risks and inconveniences that can arise in multi-vendor projects.

### PRE-CONSTRUCTION

- Master site planning
- Schematic/conceptual design
- Design development
- Construction documents
- Virtual design construction & BIM
- Estimating & pro formas

### BUILDING DELIVERY SOLUTIONS
